PREFACE

This is the fifth of six planned volumes cataloguing the ancient Greek coins in the Royal Coin Cabinet, Stockholm. The identification of the coins, I wish to stress, is based on the previous work of Dr Willy Schwabacher and Dr Ulla Westermark. I began the work on this volume in 2013 after my retirement in 2008, and the text was finished by November 2021. During these years the collection of the Royal Coin Cabinet has undergone a radical change: the name of the collection has changed to the Economy Museum – Royal Coin Cabinet and it has moved from its location in the Old Town of Stockholm back to its former premises in the Swedish History Museum. During the relocation the coins and the library were inaccessible for several years. The period of the Covid-19 pandemic made things yet more difficult. Fortunately, however, I have had invaluable help from both my former colleagues, senior curator Ulrika Bornestaf, who has given me every possible assistance in checking coins and taking new photographs when needed, and librarian Carina Bergman, who has provided generous help in procuring literature from the library and acquiring new literature when needed. I wish to thank them for their help, as well as Gabriel Hildebrand for his excellent photographs. Cecilia von Heijne, director of the Royal Coin Cabinet, has given good advice and support to this project. My thanks are also due to Jenni Hjohlman and Ulrika Gustafsson, both at the Royal Swedish Academy of Letters, History and Antiquities, who skilfully and with great patience processed my text into print-ready format. Brita Alroth has kindly gone through the bibliography and the text. The remaining errors are my own.

Many colleagues and friends have given much of their time and knowledge in various fields to help me: especially I want to thank Richard Ashton, Anne Destrooper, Wilhelm Hollstein, Philip Kinns, Andrew Meadows, and Adi Popescu. Axel Frejman introduced me to Illustrator for the drawing of monograms and special letters, Emelie Hallenberg edited many of the photographs, and innumerable are the cups of coffee and lunches during which Ragnar Hedlund encouraged me to go on even when it seemed a hopeless task. My sincere thanks to all. And, last but not least, this work would never have been completed without the loving support of my wife, Ulla Schriber.

Generous financial support has been given by the Gunnar Ekström Foundation for Numismatic Research and the Sven Svensson Foundation for Numismatics.
